Washington, May 28.—Carranza will name an envoy to the peace conference within twenty-four hours, according to a statement of Judge Douglass, the constitutionalists' counsel here, just before he went into a conference with Secretary of State Bryan.

Carranza's representative will not be compelled to agree to any stipulations prior to conference with the other mediators. The fact that Carranza is willing to participate in mediation changes the entire aspect and is regarded as the biggest step yet made toward pacification of Mexico.

Vera Cruz, May 28.—The German diplomatic representative here is dumfounded at the action of the German vessel Ypiranga land Huerta munitions at Puerto, Mexico, despite German agreement between Americans, Germans and the captain of the vessel. ## UNVEILING CEREMONY POSTPONED

At the regular meeting of the W. O. W. on Tuesday night, May 26th it was brought to the attention of the Camp that the Woodmen of the World at Campbellton had extended to the Dothan Camp an invitation to visit Campbellton on Sunday, June 7th, at the unveiling ceremonies of the Camp at Campbellton. It was also requested that Dothan send one hundred representatives to Campbellton. The Dothan Camp had already set aside Sunday, June 7th as the day and the occasion to unveil the monument to Sovereign Leo I. Driggers but on account of the extra program to be held at Campbellton the Dothan camp resinded its former action and set the unveiling ceremonies of the monument to Sovereign Driggers one week later, until the second Sunday in June.

A large number of Dothan Woodmen manifested a desire to visit Campbellton and special arrangements will be made with the Bay Line to accommodate them. Governor Park Trammell of Florida and Judge W. B. Price are scheduled to make addresses at Campbellton. At the Sunday unveiling in Dothan, Col. E. H. Hill will deliver the address.

## TO TAKE STATE SCHOOL CENSUS

State Superintendent Feagin Holds Conference With Five County Superintendents Here Yesterday.

Following a conference between State Superintendent of Education W. P. Feagin and five county superintendents from adjoining counties held here yesterday County Superintendent of Education John M. Odum says he will call a meeting of the school trustees and other appointive powers in June to formulate plans for the taking of the school census in this county in July.

State Superintendent Feagin urged the county superintendents to prepare a chart on taking the school census, and to call the trustees and other authoritative bodies together and to instruct them concerning appointing competent enumerators to take the census.

County Superintendent Odum procured a chart this morning and will begin making the preliminary plans at once. He hopes the school census in this county will be as complete as possible.

On page 26 of the school law pamphlet is to be found the law relating to taking the school census. Among other things, the law says that the penalty for false enumeration upon the conviction of any person, shall be no less than a fine of \$100 nor more than \$500 with a hard labor sentence of not less than six months nor more than twelve months.

Superintendent Feagin addressed the graduating class of the Dothan High School yesterday morning and in the afternoon held a conference at the court house with the five county superintendents. Among those present were County Superintendent R. Lee Marchmont of Dale, C. H. Byrd of Coffee, J. C. Glover of Henry, John M. Odum of Houston and a representative from Covington county.

## CHIMET WINS CHAMPIONSHIP

Paris, May 28.—Francis Chimet, the young golf champion of the United States today won the golf championship of France.

Washington, May 28.—The President requested a limit of trust legislation this session to the passage of a trade commission bill.

Delegations from Illinois, Ohio, and the National Vehicle Manufacturers called a title White House and presented a petition saying there was a general business slump and thousands of workmen idle because of the uncertainty of legislation.

The President replied that a long series of years demonstrated that the country needed legislation the Democrats are now carrying out. Better do it soberly now than put it off. There is no fundamental cause for the present depression which he characterized as only psychological.

## Seeks Husband and Her Two Children

Wan-faced, weary and travel-tired, but still game to the core, Mrs. W. M. Ketting, of Moffett, Fla. was in Dothan yesterday seeking her husband, whom she says has stolen her two babies and is hauling them over the country scantily clad, and for an she knows, awfully fed, for, she says, he is practically without funds.

Mrs. Ketting says she and her husband separated March 26 and he took their two little boys James aged 5 and Robert, aged 3 years, and left Moffett. She tried, while at her home town to have them stopped so she could regain control of her children, but Ketting got into Alabama and last Friday morning she decided to take to the road and chase them herself. She left Moffett then, riding all day Friday and Friday night. She reached here Saturday morning at 5 o'clock.

She learned in the meantime that her erstwhile husband was in Hartford where she went. She was quartered in a boarding house there where she learned he was stopping with the children. She intended during the night to get the children and go back home with them. She said however, that about 10 o'clock she heard him going out of the house with them. He having learned that she was in the house, her first intimation that he was in the house was when she heard one of the children cry at being waked up and taken out of bed to make flight.

She says they made their way to Newton, where they took the train Monday morning she thinks, to Birmingham. She said when she left Hartford he had only \$18 and spent \$1 of this for a team to Newton.

Mrs. Ketting's midday meal shows that she has traveled 500 miles. Her home, Moffett, Fla., where she is postmistress, is in DuSoto county, Fla., just a few miles from Arcadia. She says I never knew some people were so good. When I would stop at any place and ask for rates, they would give me their lowest prices and then when I went to settle would cut that in two. I started from home with a good supply of money but I have spent so much I will have to go back for some more. There is plenty there, if my husband did sell my store and take the money for that to run away with my children.

She says she will leave Dothan for her Florida home where she will get some more money and resume her pursuit for her babies. She says Ketting is 31 years old, about 5 feet 6 inches high with black eyes and black hair and weighs about 140 pounds.

## GENERAL GORGAS IS MOBILE

Today Dr. Gorgas visited the house in which he was born.

## RYE NOMINATED FOR GOVERNOR OF TENNESSEE

Nashville, Tenn., May 28.—Senator Luke Lea today rallied his forces and despite yesterday's defeat in the judicial fight landed the gubernatorial nomination for T. C. Rye. The triumph of the Lea forces came during an uproar in which the chairman lost control of the convention. Stampeded to Rye on the fifth ballot caused the anti-Lea forces to concentrate on Preston for a final struggle but this maneuver failed to stem the tide. The gubernatorial platform declares for maintenance of the present temperance and enactment of supplementary laws if necessary.

## PRESBYTERIANS WANT MEMBERS TO STAY OUT OF LIQUOR CLUBS

Chicago, May 28.—The Presbyterian General Assembly today adopted a resolution demanding that all members of the church sever their connection with clubs in which liquor is permitted to be served.

## U. S. WARNS AGAINST ALLEGED HOG CHOLERA CURES

Government Has Not Approved Any Treatment Except the Protective Serum.

Washington, D. C., May 28.—The absence of what appears to be a well organized campaign to defame farmers throughout the country into buying an alleged cure for hog cholera under the impression that this has been investigated and approved by the United States Government, has attracted the department of Agriculture. Articles praising this medicine, bearing its name are being sent out wide spread to new paper. These articles are so worded that it appears as if the Department of Agriculture had received reports from the state of Minnesota showing that the medicine had proved most beneficial. As a matter of fact the one report received by the department was an unofficial and unpolished statement sent presumably from the promoters themselves. The department attaches no importance whatsoever to this statement. It has no reason to believe in the efficiency of any proprietary cure for hog cholera and does not recommend any. Under certain conditions it urges farmers to protect their stock with anti-hog cholera serum but that is all.

In connection with this attempt it may be said that the medicine, which is now put forward as good for hogs, was advertised some time ago as a means of killing tuberculosis, typhoid and cancer germs, according to an article published in the Journal of the American Medical Association. At that time it was asserted that the Army was interested in it. As a matter of fact the Army was no more interested then than the Department of Agriculture.

In view of the evidence that the attempt to create this false impression is persistent and widespread, all hog owners are warned to communicate with the United States authorities before accepting as true any statement that the government recommends any other treatment other than the serum already mentioned.

## THIS IS HUERTA'S DAY NOT TO RESIGN AND FLEE

Mexico City, May 28.—Minister of War Blanquet announced today that the government expected to receive a large shipment of arms and ammunition in a short time to be used to equip the militia organized by Huerta for national defense.

There was a long cabinet meeting at the palace last night. Huerta declared he would fill the vacant places in the cabinet and intend to stay here. There are no indications today that he intends to leave the country.

## Traveling Man Weds in Dothan Today

Herman Apple of Florida, a traveling salesman, and Miss Minnie Lee Patterson, of Chickadee, Tenn., were married at the court house today, Chief Clerk W. U. Acree performing the ceremony.

The bride had been residing at Pensacola, Fla., for some time, where she is well known and has many friends. The groom is well known among the business men in the cities and towns where he has been.

## CHICAGO MERCHANTS "STRONG" FOR MODERATE AMONG EMPLOYEES

Chicago, May 28.—Young women with good dispositions, average attractiveness and with no ill skills, low cut necks or flat curls gunned on their cheeks, need never lack employment in Chicago, provided that they possess a reasonable degree of competency.

This was the result of a discussion on the subject here last night by employment heads of a number of large department stores and mail order concerns and experts from the Women's Trade Union League and several civic bodies.

One employer said that the greatest problem is the middle-aged woman who had grown careless of her appearance.

Another declared that it was "frankish" girls.

A third said that the hardest kind of girl to find a place for was the college girl with no vocational training.

## MEDIATORS REACH AGREEMENT ON SIX IMPORTANT POINTS

Mediation Headquarters, Niagara Falls, May 28.—Agreement has been reached by Mexican and American delegates on six important points it was learned today as the conference convened for the morning session. Those points are: Retirement of Huerta from provisional presidency, Huerta may run in next election if he wishes, constitutionalists to be allowed to select Carranza or any other man as their candidate, land question to be left to Mexican congress under moral obligation to bring about distribution to peons, amnesty for all Mexicans and Spaniards, American flag to be saluted by provisional president chosen by all factions.

Success or failure depends on Huerta's attitude on the first point and Carranza's participation in the plan. With Huerta's landing munitions and Carranza's attitude still in doubt no one connected with mediation would hazard a guess as to the outcome.

Just Was Good Enough for Him.

The prison reformer looked at No. 411 and shook her head in a disappointed fashion, says the Chicago Record:

"You say you are satisfied with the quality of the food?"

"Yes'm."

"And the rules and regulations?"

"Yes'm."

"You have no fault to find with the ventilation nor the sanitation, nor the management?"

"No, ma'am."

"That's very strange. Perhaps you would prefer to remain in prison rather than go free?"

"I sure would lady."

"What was the crime that placed you here?"

"Polygamy, ma'am. I've got five wives out there waiting for me!"

Isn't That the Truth.

"George," said the wife to her generally unappreciative husband, according to the Ladies Home Journal, "how do you like my new hair?"

"Well, my dear," said George, "with great candor, 'to tell you the truth—'"

"Stop right there, George! If you're going to talk that way about it I don't want to know."

### THEY LACK CONFIDENCE.

During the recent campaign, when it was hottest, and when the editor of the Advertiser was accused of going to Louisville to find out what he should do in the campaign, the editor of that paper didn't say he did, or he didn't. He just lay low.

Now that the campaign has come to a close, the Advertiser, and the Birmingham News, which think alike, are daily lecturing the newly elected legislature to pay no attention to this state-wide talk, but to keep a cool and level head—to do nothing rash, that it would regret it. Those papers, which promised the signing of a peace treaty if Henderson was elected; which promised sanity and prosperity; which promised the restoring confidence (as if anybody had misplaced our confidence except the men they endorsed four years ago) they are now, busily telling the people that awful things would happen if the liquor business is tampered with in the least. They are pleading, almost in one of those "choking voices" Capt. Kell so effectively used, to steer clear of the state-wide talk, as they believe.

Charles Henderson, some months ago, set the pace, when he said "the liquor traffic was the bane of civilization," and when he said that, those papers thought he made a mistake, but owing to the scarcity of gubernatorial timber, they didn't throw him down; but stood by him, and tried to overlook his statement, even leaving that part of the statement out one time.

Subsequent results have shown that the majority of the people of Alabama have confidence in Charles Henderson. They expressed themselves along that line, but the Advertiser and the Birmingham News fear he will make a mistake if the legislature don't properly cautioned as to its duty. By this early talk, they expect to create a sentiment to back their ideas, and it won't be long before they will claim that the legislature was committed to let the whiskey laws stay as they are, and then they will attempt to put it up to Mr. Henderson, that it's his duty to urge no new legislation along that line. Watch the papers closely; within six months, they will have made out a clear case, and show where they whole bunch could do nothing else, and keep their platform pledges, except to leave the whiskey laws just like they are.

The Advertiser and the News, shouldn't try to drag in something now that they dared not drag in during the campaign. They should show the same confidence in Mr. Henderson that they did before. Nearly everybody in the State, whether they voted for Henderson or not, believe him a competent and sincere man. They believe he has good judgment, and will do his duty as he sees it. But those two

papers fear, they will not, for they urge the legislature to change its viewpoint to that of the papers. Clearly they lack confidence. They show it every day. They fear Mr. Henderson isn't as much of a whiskey man as they would like.

### THE ROOT OF THE DIVORCE EVIL.

Commercial Appeal.

Statistics may not always prove a point, but statistics at least furnish food for thought.

Just now the entire country is interesting itself over the divorce question. It is one that should be seriously considered. Able sermons have been preached upon the evil. Learned discussions have been indulged in. The courts continue to do business in the same old way.

Once each year the governors of the different states meet and discuss public matters, so that a better understanding for the general public good may be reached. At each convention the eternal question of divorce is submitted to the governors. At each convention a resolution declaring for uniform divorce laws is adopted, dropped and forgotten until the next convention.

The resolution offers a logical solution—but the resolution gets no further than the home of governors.

The increase in the number of divorces granted each year, not in one state, but in all states, is alarming.

It appears as though the sanctity of marriage had lost its value. The good old-fashioned occupation of motherhood seems to decline before the onward march of civilization.

There must be a cause for this unfortunate condition of affairs. There must likewise be a remedy for it.

The District of Columbia stands very close to the top among American communities for frequency of divorce. Of late years the district courts have been called upon for one divorce for every four marriages.

These figures cannot be denied, for the court records show that one divorce has been entered for every four marriage licenses issued. More than 90 per cent of the couples seeking divorce had no children. Forty per cent of these couples were united in runaway marriage—that is to say, they were wed in the face of parental opposition or in disregard of the usual formalities. Still more significant is the fact that 30 per cent of these couples were under 20 years of age at the time marriage was contracted.

Such a record convincingly supports the theory that the main cause for divorce is imprudent and frivolous marriages. Too few realize the sacredness of the marriage vows that they fail to respect in later years. Marriage is a sacred and solemn contract. It should not be considered lightly. It should be weighed with every consideration. When once marriage is decided upon the contracting parties should make up their minds to observe the sanctity of wedded estate and cling to each other for better or worse until the final day.

In looking through the announcement columns of a Kansas paper we find such names as the following, asking for the votes of the people: Nellie Griffin, Sarah Edwards, which would indicate that the women have some show in elections out there. But when you see such names as these, among the men, you are not surprised, at the women candidates: Cal Monn, LaMont DeCamp. If the male candidates offering for office sign up to such names, there is no wonder that an old time name like Nellie Griffin,

### A BETTER WAY.

The Alabama Railroad Commission, which is going out of office now pretty soon anyway, has a good opportunity of doing the State a lasting service by adopting some of the methods with reference to the Pullman service that California has adopted. Out there, the confusion gave the Pullman company just thirty days to raise the wages of its porters, with a view of stopping the tipping evil.

But we know of a better way than fooling with legislation. On a recent trip the Pullman company had a new porter. He started in at 3 o'clock to make down twenty-four berths. Being a green hand, it took him thirty minutes to the berth, and when he got the last berth made up, the people he worked for earlier in the night were getting up, and he spent the rest of the day making up the berths. He didn't get an opportunity of pulling his whiskbroom on a passenger and therefore, hadn't done anything to deserve a tip, and he even was aware of it.

So if the Pullman company would employ a bunch of green porters, who worked as slow as this one, the tipping nuisance would die easy, and the porter would quit his job and go to work at something else, and the Pullman people would then be forced to hire porters at a living price.

The Age-Herald didn't take an active stand in the last political race, and indeed it doesn't take much of a stand in any of them, but if it doesn't fire its political forecaster and employ that other Birmingham grower its subscription list will fall off mightily in Houston county.

We know paints—good—bad—indifferent—and in all our experience with all kinds, under all conditions, we've never seen a paint to equal Lowe Brothers "High Standard" Liquid Paint. ## Hosiery Department Dothan's Best Store

More than 90% of the hosiery being sold by us comes direct from the mill that makes it to our store.

This insures at all times fresh yarn which gives strength and durability to the knitted hosiery fabric.

Age makes hosiery yarns tender. Hosiery may be recent arrivals in some retail store, but if bought from a wholesale house there is no telling how long since it was made.

This is why we buy most hosiery direct from the mill making it.

This week's express has brought many new things to us.

MISS MARGARET GILLERSTEDT, Editor

IF YOU WERE  
If you were busy being kind,  
Before you know it you would find  
You'd soon forget to think 'twas  
true  
That someone was unkind to you,  
If you were busy being glad,  
If you were busy being glad,  
And cheering people who are sad,  
Although your heart might ache,  
You'd soon forget to notice it,  
If you were busy being good,  
And doing just the best you could,  
You'd not have time to blame some  
man  
Who's doing just the best he can,  
If you were busy being true,  
To what you know you ought to do,  
You'd be so busy you'd forget  
The blunders of the folks you've  
met,  
If you were busy being right,  
You'd find yourself too busy quite  
To criticize your neighbor long,  
Because he's busy being wrong.

### "THE GREATEST KIDNEY REMEDY ON EARTH" SAYS A GRATEFUL WOMAN

I want to tell you how much good your Swamp Root did me. About four years ago, I suffered from what the doctors called fistula and for 2 years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Some one told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respectfully yours,
